Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13

Replaces Version: 1 / GB Date of printing: 11.07.13

## 1. Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

New Formula Treatex Hardwax Oil Clear Matt 007

# 1.2. Relevant identified uses of the substance or mixture and uses advised against Use of the substance/preparation

Surface treatment of wood and other materials

## 1.3. Details of the supplier of the safety data sheet

#### **Producer**

Treatex Ltd, Unit I, Howland Road Business Park,

Howland Road, Thame, Oxfordshire,

OX9 3GQ

Telephone no. +44 (0) 1844 260416 Fax no. +44 (0) 1844 358160 E-mail address nfo@treatex.co.uk

## 1.4. Emergency telephone number

+49 (0) 30 30686790

#### 2. Hazards identification

#### 2.1. Classification of the substance or mixture

Reference to other sections 2.2. Label elements

## 2.2. Label elements

## Labelling in accordance with EC directives 1999/45/EC and 67/548/EEC

#### R phrases

10 Flammable.

Repeated exposure may cause skin dryness or cracking.

Vapours may cause drowsiness and dizziness.

S phrases

2 Keep out of the reach of children.

#### Sensitising substances

## 2.3. Other hazards

This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB) (if not listed in Section 3).

## 3. Composition/information on ingredients

## **Hazardous ingredients**

#### naphtha hydrodesulfurized heavy

CAS No. 64742-48-9 EINECS no. 265-150-3

**Further hazardous ingredients** 

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13

Replaces Version: 1 / GB Date of printing: 11.07.13

This product does not contain substances of very high concern (Regulation (EC) No 1907/2006 (REACH), Article 57) (if not listed in Section 3).

#### 4. First aid measures

## 4.1. Description of first aid measures

#### **General information**

When symptoms persist or in all cases of doubt seek medical advice. If unconscious place in recovery position and seek medical advice. First aider needs to protect himself. Move out of dangerous area.

#### After inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. Keep patient warm and at rest. Consult a physician for severe cases.

#### After skin contact

Wash off immediately with soap and plenty of water. Do NOT use solvents or thinners. If skin irritation persists, call a physician.

## After eye contact

In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Consult a physician.

## After ingestion

Do NOT induce vomiting. Consult a physician.

## 4.2. Most important symptoms and effects, both acute and delayed

Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness. High concentration of vapours may cause irritation to eyes and respiratory system and produce narcotic effects. The liquid splashed in the eyes may cause irritation and reversible damage.

# 4.3. Indication of any immediate medical attention and special treatment needed Hints for the physician / treatment

Treat symptomatically.

## 5. Firefighting measures

#### 5.1. Extinguishing media

## Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

## Non Suitable extinguishing media

Do not use a solid water stream as it may scatter and spread fire.

## 5.2. Special hazards arising from the substance or mixture

As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10). Exposure to decomposition products may be a hazard to health. Vapours may form explosive mixtures with air.

#### 5.3. Advice for firefighters

#### Special protective equipment for fire-fighting

Wear self contained breathing apparatus for fire fighting if necessary.

#### Other information

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13

Replaces Version: 1 / GB Date of printing: 11.07.13

Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water spray. Standard procedure for chemical fires.

#### 6. Accidental release measures

## 6.1. Personal precautions, protective equipment and emergency procedures

Remove all sources of ignition. Ensure adequate ventilation. Avoid breathing vapours, mist or gas.

## 6.2. Environmental precautions

Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration. Contact the proper local authorities.

## 6.3. Methods and material for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Clean contaminated floors and objects thoroughly while observing environmental regulations. Clean with detergents. Avoid solvents. Keep in suitable, closed containers for disposal.

#### 6.4. Reference to other sections

Refer to protective measures listed in sections 7 and 8.

## 7. Handling and storage

## 7.1. Precautions for safe handling

#### Advice on safe handling

Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. Keep containers tightly closed in a dry, cool and well-ventilated place. Use only with adequate ventilation/personal protection. Ensure adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Avoid contact with the skin and the eyes. Do not breathe vapours or spray mist. When using, do not eat, drink or smoke. Use personal protective equipment. For personal protection see section 8.

#### Advice on protection against fire and explosion

Vapours may form explosive mixtures with air. Vapours are heavier than air and may spread along floors. The product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Mixture may charge electrostatically: always use earthing leads when transferring from one container to another. Take measures to prevent the build up of electrostatic charge. Wear shoes with conductive soles. No sparking tools should be used. Standard procedure for chemical fires. Do not process in the same cabin together with highly flammable material (e.g. CN lacquer) => fire hazard through self ignition! Cleaning cloth soaked with the product can self ignite during packing up, therefore dry the cloth on a line or through spreading and dispose of after dry up.

## 7.2. Conditions for safe storage, including any incompatibilities

## Requirements for storage rooms and vessels

Keep in an area equipped with solvent resistant flooring. Store at room temperature in the original container. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

## Hints on storage assembly

Keep away from oxidising agents and strongly acid or alkaline materials.

#### Storage class according to the Occupation Safety Ordinance:

Flammable.

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2/GB Date created/revised: 05.07.13 Replaces Version: 1/GB Date of printing: 11.07.13

## Further information on storage conditions

Protect from frost, heat and sunlight. Keep away from sources of ignition - No smoking. Store in accordance with the particular national regulations.

## 8. Exposure controls/personal protection

#### 8.1. Control parameters

## **Derived No/Minimal Effect Levels (DNEL/DMEL)**

#### naphtha hydrodesulfurized heavy

Type of value **DNEL** 

Reference group Workers (professional)

Duration of exposure Long-term Route of exposure Dermal exposure Mode of action systemic effect

Concentration 300 mg/kg/d

Concentration 900 mg/m<sup>3</sup>

**DNEL** Type of value Reference group Consumers Duration of exposure Long-term Route of exposure Oral exposure Mode of action systemic effect

Concentration 300 mg/kg/d

## 8.2. Exposure controls

#### **Exposure controls**

Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

#### **Respiratory protection**

In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13

Replaces Version: 1 / GB Date of printing: 11.07.13

suit. Recommended Filter type: Combination filter: A2-P2 (EN 141, 143, 371)

#### Hand protection

Protective gloves complying with EN 374.

Glove material

Multilayer gloves made from

Appropriate Material Fluorinated rubber / butyl-rubber

This recommendation is only valid for the product mentioned in the safety data sheet and provided by us and for the application specified by us.

The exact break through time can be obtained from the protective glove producer and this has to be observed.

Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

## Eye protection

Safety glasses with side-shields conforming to EN166

#### **Body protection**

Wear suitable protective clothing. Remove and wash contaminated clothing before re-use. Wash hands before breaks and at the end of workday.

## 9. Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

Form	liquid		
Colour	colourless		
Odour	characteristic		

**Boiling point** 

Value 180 to 217 °C

Flash point

Value 43 °C

**Explosion limits** 

Remarks no data available

**Density** 

Value 0,923 to 0,923 g/cm³ Temperature 20 °C

Solubility in water

Remarks immiscible

Ignition temperature

Remarks no data available

Efflux time

Value 53 to 59 s Temperature 20 °C

Method DIN 53211 4 mm

## 10. Stability and reactivity

## 10.1. Reactivity

No conditions to be specially mentioned.

#### 10.2. Chemical stability

Stable under normal conditions.

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13
Replaces Version: 1 / GB Date of printing: 11.07.13

Replaces Version: 17 GB Date of printing: 11.07.

## 10.3. Possibility of hazardous reactions

To avoid thermal decomposition, do not overheat.

#### 10.4. Conditions to avoid

Heat, flames and sparks.

## 10.5. Incompatible materials

Keep away from oxidising agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

## 10.6. Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke. No decomposition if stored and applied as directed.

## 11. Toxicological information

#### 13. Disposal considerations

#### 13.1. Waste treatment methods

## Disposal recommendations for the product

EWC waste code 080111 - waste paint and varnish containing organic

solvents or other dangerous substances

EWC waste code 200127 - paint, inks, adhesives and resins containing

dangerous substances

Where possible recycling is preferred to disposal or incineration. Try to prevent the material from entering drains or water courses.

#### modified product

EWC waste code 080113 - sludges from paint or varnish containing organic

solvents or other dangerous substances

EWC waste code 080115 - aqueous sludges containing paint or varnish

containing organic solvents or other dangerous substances

**Dried residues** 

EWC waste code 080112 - waste lacquers and waste paint except those

falling under 080111

#### Disposal recommendations for packaging

EWC waste code 150110 - packaging containing residues of or contaminated

by dangerous substances

Empty remaining contents.

Empty containers should be taken to local recyclers for disposal.

#### 16. Other information

## R-phrases listed in Chapter 3

38 Irritating to skin.

May cause long-term adverse effects in the aquatic environment.

Harmful: may cause lung damage if swallowed.

Trade name: New Formula Treatex Hardwax Oil Clear Matt 007

Version: 2 / GB Date created/revised: 05.07.13

Replaces Version: 1 / GB Date of printing: 11.07.13

Repeated exposure may cause skin dryness or cracking.

Vapours may cause drowsiness and dizziness.

## Hazard statements listed in Chapter 3

EUH066 Repeated exposure may cause skin dryness or cracking.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H413 May cause long lasting harmful effects to aquatic life.

#### **Abbreviations**

Flam. Liq - Flammable liquids ACUTE TOX. Acute toxicity

EYE IRRIT. - Serious eye damage/eye irritation

MUTA. - Germ cell mutagenicity ASP. TOX. - Aspiration hazard CARC. - Carcinogenicity REPR. - Reproductive toxicity

SKIN CORR. - Skin corrosion SKIN IRRIT. - Skin irritation

EYE DAM. - Serious eye damage

EYE IRRIT. - Eye irritation

RESP. SENS. / SKIN SENS. - Respiratory/skin sensitisation

AQUATIC CHRONIC/AQUATIC ACUTE - Hazardous to the aquatic environment

STOT SE. - Specific target organ toxicity - single exposure STOT RE. - Specific target organ toxicity - repeated exposure

**EXPL.** - Explosives

FLAM. GAS - Flammable gases
